**Abstract:** *The indigenous production of arms and defense equipment is a cornerstone of India's national security policy, aimed at reducing its reliance on foreign imports. However, this endeavor is not without its challenges, particularly in the form of a complex and multifaceted supply chain. This paper delves into the various obstacles and intricacies associated with the supply chain in India's indigenous arms production, shedding light on issues related to technology transfer, quality control, and the role of private sector participation.*

**Keywords:** Indigenous Arms Production, Defense Manufacturing.
