Abstract: India, a country of great cultural heritage and India’s cultural diversity in the form of art and craft products provides plenty of opportunities to the local artists. In today's world, most people are using technology for leading their lives and fulfilling their daily needs. In this generation most of us are using E-commerce websites for shopping clothes, groceries, and electronics. We will be developing one E-commerce web application by using MERN stack technology. This application will be fully functional with different views for user and admin and it will also be integrated with payment gateway for checkout. Epicraft website aims to help creative entrepreneurs of handloom and handicraft sector.
