

To Study the Sustainable Future of the Apparel Industry

Dr. Aahuti Sharma

Faculty, Government Women's Polytechnic College, Indore

Abstract: *Sustainable fashion is a recent movement within the apparel industry that aims to reduce textile waste and environmental depletion while increasing ethical treatment of workers, the goal is to slow down the global production and consumption process in order to form an industry that will be more sustainable in the long run. Along with the development of more socially and ecoconscious production and marketing practices, there is still room for the sustainable fashion movement to grow beyond its current scope.*

Keywords: Sustainability, Apparel, fabric waste.
