Abstract: *To provide a more convenient lifestyle for book lovers, we introduce "SHAREBOOK"—a software application that allows users to listen to books anytime, anywhere. Upon logging in, users are presented with an intuitive interface. This audiobook project covers a wide range of genres, including comedy, thriller, romance, and science fiction. Each genre is approached with tailored narration techniques and production elements to suit its unique atmosphere. Sound effects and background music are strategically incorporated to enhance the immersive experience, aligning with the specific mood and themes of each narrative.*
