Abstract: *The framework has been seeded with almost 4 questions that would permit era of numerous choice questions of analyzer chosen themes from an undergrad course in social databases. Reviewing can be done quickly, for understudy hone purposes, or if the exam is given at the same time to understudy of a course, evaluating can be deferred until everybody is done with the test. Another striking highlights of Online Test framework is the back for templated address designs. The primary advantage of templated questions are, amid an appraisal each understudy will get diverse questions based on same concept. This makes a difference staff to dodge any.*
