Abstract: Face is sensitive part of our body so care of face is one of the important task for human beings. There are several preparation are available for face care, from which face wash plays important role for improving appearance as well as for treating several facial skin conditions. Face washes prepared by herbal ingredients are better than the synthetic ingredients to avoid skin irritation and other side effects. In the present work an attempt was made to formulate & evaluate face wash with antioxidant, antibacterial and antiseptic properties which are necessary to keep the skin, smooth and attractive. Herbal Face wash is made from Aloe vera extract, turmeric powder extract, orange peel extract for anti-acne, anti-inflammatory also anti-bacterial activity and to improve the skin and enhance beauty. Face wash improves circulation and cleanse the entire face. prepared face wash evaluated for colour, odour, consistency, pH, spread ability, wash ability, grittiness, foamability..
