**Abstract:** *The National Education Policy (NEP) 2020 marks a significant paradigm shift in India's education landscape, introducing comprehensive reforms to enhance accessibility, equity, quality, affordability, and accountability across all levels of education. This paper explores the key aspects of NEP 2020, its transformative impact on foundational, school, and higher education, the integration of technology, teacher education, and the challenges faced in its implementation. Furthermore, it examines the policy's role in aligning India's education system with global best practices, emphasizing holistic, multidisciplinary, and skill-based learning while leveraging digital innovation and inclusive education. If implemented effectively, NEP 2020 has the potential to position India as a global knowledge superpower and drive socio-economic progress..*
