

The Development of 21st Century Teacher Competencies and Indian Primary Education

Dr. Shaikh Irfan Jamil and Dr Akhlesh Kumar Meena

Assistant Professor

MANUU College of Teacher Education, Bhopal

Abstract: *This essay explores the different aspects of modern education, particularly in India, by analysing the evolution of educational objectives over time, the challenges posed by globalization, and the responsibilities that students and teachers now undertake. It highlights the shift from conventional education to a model centered on ethical principles, cultural conservation, and international competitiveness through the use of contemporary educational structures. The article goes on to describe the particular skills and dedication needed for educators to successfully negotiate the legal, social, and financial challenges of the twenty-first century.*

Keywords: Educational Administration, Teacher Competency, 21st Century Students, Cultural Conflict, Commitment, Globalization
