Shri Sant Gajanan Maharaj College of Engineering, Shegaon, Maharashtra, India

Abstract: *In every educational organization Training and Placement plays an important role. Until now, most of the work is done by hand at the Training and Placement Cell. This project aims to build Web Portal for the "Training and Placement Cell" of our college. Training and Placement activities are automated by this portal. It is a web-based Application that helps students as well as the administrative staff to perform every activity in the campus recruitment process. This portal is accessed and impressively used within the organization with correct login credentials. This portal is used by the Training and Placement Officer (TPO) of the college to maintain the student information with regard to the campus hiring. Student login should be able to fill and update the personal and academic details along with the resume. Students should be able to see the placement drives, on-going events or workshops held in the organization.*

Keywords: TPO, Training and Placement Cell, Automated, login credentials.
