Abstract: *The greatest treasure in everyone's life is their child. It can say in another word as god's boon. A single child can change the world. The child has all the power to mould the destiny of a nation. Every child has boundless courage, zeal, capacity & skill to change the nation into a powerful country. Children can build the nation by investing in them in their early age will provide a foundation for future success in both economically and socially for the entire nation. Child can reform anything in the nation. Every child can bring different changes in the world if they can be guide and support with right time with right path. Children's are considered as god's representative and also they are the most innocent person in the world. Children's are encouraged to do rectify their mistakes instead of punishment because they are the tomorrow's citizens. So, this paper discussing about the concept of child rights*

Keywords: God's Boon, Real Heroes and Heroines, Nation Builders, Citizen

I. INTRODUCTION

Even though much progress has been implemented in the recent days millions of children not yet achieved or received their basic rights in the world. There are many issues happening around the child like child labour, child harassment, child abuse etc... Children must have to protect more additionally for their future betterment so that only many organizations has been created to protect children. Children are the potential embodiment of our ambition, goal, inspiration, aspiration and all.

UNICEF means special program created for child which (UN) has been aimed for improve and protect the children's health, nutrition, education and general welfare. The truth is that after world war –II, mainly after 1950 children's welfare has neglected even basic rights has not been provided. This organization took severe steps to broaden the mission which was created for the United Nations children's fund-1953 which is situated in New York.

The UNICEF has mainly focused its concentration on children who has much affected in diseases. The children are need to be helped when they need through financially like for treatment, Education, etc. With this view, UNICEF, started to guide, support and helps the immunization programs for affected children to prevent them from diseases who were crucially affected, and also by helping and encouraging like providing funds for services in health issues, educational field and all other common services in all sectors. This UNICEF has formally supported financially by both the government and non-government sectors. UNICEF programs has been guided to protect the rights of the child which affairs the right of all children to enjoy the highest attainable level of standard health and to help for the childrens illness treatment and to give rehabilitation of healthy life.

Basically child care system also known as day care which comes under 15 days from birth to 18 years. Early stage child care is much supported and often overlooked component of child care development. This Child care is the broaden title and topic which covers wide range of all spectrum of professionals, cultural, political, institutions level, context and all other conventions.

II. NEED TO PROMOTE CHILD CARE PROTECTION

Children rights are the basic rights which need to provide to every child for their basic growth and proper development. Children have the proper rights to live in this same world with human identity with their parents. They also have the right to grow physically and mentally, need shelter, need regular food, uninterrupted education, follow up health care, individual development, freedom in day to day life and criminal laws that are right for their living. Children also have the right to equal protection of their civil rights and to not be treated differently but it must be strictly abolished while

the children are differentiated for these reasons like race bias, gender bias, sexual harassment, religion cause, or colour, due to any cause of this above reason they are not differentiated.

Basically legal and political rights, need to ensure children protection. Every child deserves to have a full potential to live in this same world with equal rights by getting all needs where as they are abused in many circumstances. Children need a safe environment situation at all places where some cases from violence or harm by some people it may affect them. Economically or generally in some cases child may be affected by health issues. In our country more than 80% of population covered with children. When we compare to other country in India only the largest population covered with children community. The children are the major source of all the country. Like all other people in the country, children too have some basic rights and needs to fulfil to live peacefully with basic requirements.

III. FUNDAMENTAL RIGHTS OF CHILDREN ARE GIVEN BELOW.

- Need to get basic rights in Education.
- Need to get basic rights in speech.
- Need to get basic rights in Survival.
- Need to get basic rights in Participation.
- Need to get basic rights in all the needs.
- Need to get basic rights in Development of all the sectors.
- Need to get basic rights in Health issues.
- Need to be Protected from Violence.
- Need to get basic rights in Family Life.
- Need to get basic rights in an Opinion to convey.
- Need to get basic rights to be protected from Exploitation.

IV. LIST OF CHILD PROTECTION SOME LAWS AND ARTICLES TO SAFEGUARD CHILDREN

Children have equal rights like all other adult citizens of India.

- 2012- Sexual Offences Protection act.
- 2009 - Free and Compulsory Education act.
- 2006- Prohibition of child marriage act.
- 1986-Child labour (prohibition and regulation) act.
- 1987- The immoral traffic (prevention) act.
- 1989- United Nation Convention act has passed.
- 1933- Children pledging of labour act.

V. SIGNIFICANCE OF CHILD RIGHTS

- Basic needs of the children are called as child rights like others.
- There shouldn't be any bias among young child for caste, gender, race etc.
- To grow physically and mentally children need to be free like others.
- Child rights start from Rights to education.
- Child rights are essential mainly in good environment.
- Child rights are also very important for the development of the nation.
- Children should be treated like all others.
- Children's need to safeguard from exploitation.
- Mainly child labour and child harassments abolished from country.

VI. CONCLUSION

Child rights are the basic rights in all countries which need to focus and safeguard their life. Like adults, they too have a life, needs, to live with all the requirements. Everyone should follow the rules and take care of Childs protection.

Each and Every child has equal rights to live in this world like others there shouldn't be any misbehaviour or mistreatment among all in this earth. Moreover, children must protect and take care by the most vulnerable people in the same communities. The child must be kept away from some harmful events like, child labour, war, child marriage, child abuse etc. The common people need to take care and put much effort for the better future for childrens especially needy children.

This paper will be helpful to analyse the major parts of children's rights where and how they need to protect more of in their life. Child rights are needed to give for the betterment of growth, development, and well-being. They are not only just like child but they too human being it must keep in everyone's mind.

While analysing from few parts child rights protection need to take actions more in all fields. Every child can fully enjoy their rights with full principles of human values, power, rights, justice and all other fields.
